SUMMARY

Software Engineer with 4+ years of experience building and maintaining large-scale fintech applications in a complex multi-tenant environment.

Strong frontend background in Angular, React and TypeScript, with growing full-stack expertise in Python (FastAPI), REST APIs, and backend service development. Experienced delivering production features end-to-end across UI, backend, authentication, payments, and configuration-driven systems.

Known for quickly ramping up in new areas, taking ownership of features, and working across multiple teams and client configurations within a shared platform.

TECHNICAL SKILLS

- **Frontend:** React, Angular, TypeScript, Tailwind, Figma
 - **Backend:** Python, FastAPI, REST APIs
 - **Data:** PostgreSQL
 - **Tools:** Git, Docker, CI/CD
 - **Testing:** Pytest
-

EXPERIENCE

Software Engineer - Abound | Mar 2022 – June 2026

Full-stack engineer on a large fintech monorepo (Render platform) supporting multiple white-labelled clients and financial products. Work spans frontend, backend, APIs, and configuration-driven multi-tenant architecture.

- Built multiple production systems from scratch, including Broker Portal and payment infrastructure
- Contributed across a platform serving **multiple white-labelled fintech clients**
- Delivered full-stack features across Angular and React frontend and Python backend services
- Trusted with security-sensitive systems including payments, RBAC, and financial ledger logic
- Progressed from frontend-focused engineer into full-stack ownership roles

Engineering Practices

- Delivered 170+ tracked tickets across 4 years in a fast-moving product environment
 - Regular contributor across frontend, backend, database, and configuration layers
 - Strong focus on incremental delivery, production stability, and maintainable code
 - Active participation in code reviews, refactoring, and bug fixing
-

Full-Stack Feature Ownership

- Led development of a **new Broker Portal (greenfield project)** including dashboard, broker search, navigation, and role-based access control.

- Implemented **RBAC and permission enforcement**, ensuring brokers only access their own data and views.
- Delivered multiple end-to-end features across frontend (React) and backend (Python/FastAPI), from design through to production.

Payments & Financial Systems

- Built and shipped a **hosted payment links system**, allowing secure payment flows from dashboard-generated links.
- Implemented payment UX flows including loading states, submission handling, and integration with external payment provider systems.
- Worked on facility and ledger features including tranche-level actions such as refunds, repayment adjustments, and cancellations.

Multi-Tenant Platform & Open Banking

- Contributed heavily to a white-labelled Open Banking journey used across multiple client brands using Tailwind CSS..
- Implemented client-specific UI branding, configuration, and feature variations across a shared codebase.
- Worked across **10+ client configurations**, ensuring consistent behaviour while supporting custom requirements per tenant.

Backend Development (Python / FastAPI)

- Built and extended backend services using FastAPI, including REST endpoints, service logic, and Pydantic models.
- Contributed to financial workflows such as ledger updates and facility management endpoints.
- Worked with authentication flows, session handling, and RBAC-based backend enforcement.
- Wrote and maintained tests using Pytest (unit and integration coverage).

Selected End-to-End Features

- **Facility Notes system**
 - Backend: models, APIs, service layer, tests (Python/FastAPI)
 - Frontend: React components and UI integration
- **Self-Declared Income flow**
 - Full frontend-to-backend integration with form handling and API migration
- **Premium finance & facility actions**
 - Repayment changes, BNPL cancellations, ledger updates

EDUCATION

BA in Economics (Finance & Accounting) – 2:1 equivalent
Szent István University, Budapest

PREVIOUS EXPERIENCE

National Tax & Customs Administration – Tax Inspector / Administrator | 2008 - 2015
